| <i>Funnybones</i> | <i>Janet & Allan Ahlberg</i> | Funnybones follows the adventures of a well-loved family of skeletons. These classic stories are full of humour and provide a great curriculum link into finding out about what lies inside the human body. |
| <i>The Growing Story</i> | <i>Ruth Krauss and Helen Oxenbury</i> | The Growing Story is an enchanting story about a boy who watched living things grow and change through the seasons. Just as he begins to think that he will be small forever, he learns to see the signs that he is growing and changing too. |
| <i>Titch</i> | <i>Pat Hutchins</i> | It's not easy being the smallest in the family, like Titch. But Titch soon discovers that even something as tiny as a little seed has the potential to grow into a plant that is very big indeed. Titch is a story for anyone who knows what it is like to feel small. |
| <i>Only You</i> | <i>Linda Kranz</i> | This is a feel-good story with an important message about the value of each human being. Only One You is a good book for stimulating discussion and reflection about treating each individual with respect and appreciating the uniqueness of ourselves and others. |
| <i>You Choose</i> | <i>Pippa Goodhart & Nick Sharratt</i> | Get pupils choosing, imagining and expressing their own preferences with this massively appealing picture book full of choices. Each double-page spread is themed around a different choice to make and packed with all sorts of possibilities from the tame to the outright wacky; choose furniture for your ideal house, choose a pet (watch out for the dragon) and choose favourite food (the ice cream looks good but I'm not sure about the boar's head!). |
| <i>Ready Steady Mo!</i> | <i>Mo Farah and Kes Gray</i> | Ready Steady Mo is a simple, rhyming text from the inspirational Mo Farah in collaboration with popular picture book author Kes Gray. Bright illustrations and repetitive text make this a popular story that is great for joining in with and inspiring children to get their bodies moving. |
| <i>Look Out! How We Use Our Five Senses!</i> | <i>Leon Read and Sean Sims</i> | We love information texts with interactive elements and this one does not disappoint! The book explores the five senses and what each sense is for using fun characters, bright illustrations and simple infographics. When you hold up certain pages to the light (or shine a torch through), extra details are revealed. |
